

James Stott

Full Stack Web Developer

Hackney, London • japstott@gmail.com

Objective With over a decade of experience as a Senior Data Analyst, I've become skilled at uncovering insights and guiding data-driven decisions. Currently, I'm immersed in a software development bootcamp, shifting my focus toward web development. Alongside my proficiency in Python, Typescript, AWS, SQL, Power BI, and Tableau, I'm also well-versed in JavaScript, CSS, HTML, and React. I'm excited to bring my analytical approach and collaborative spirit to crafting innovative solutions within the tech industry.
